Friday 18th September 2026

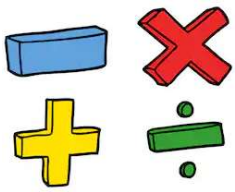
Dear Parents/Carers,

RE: Autumn 1 2026

Welcome back! I hope you had a lovely summer. I am really looking forward to this half-term and below I have outlined the learning that will take place.

Staffing in Year 6

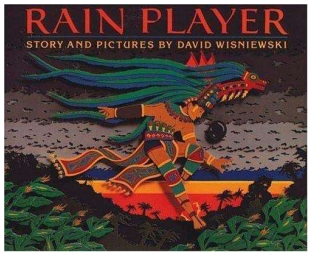
Mr Carlow will be working as a learning support assistant across both Year 6 classes this year on Mondays, Thursdays and Fridays.
Mrs Le Couteur, Mrs Fogarty and Mrs Hansford are also supporting across Upper Key Stage 2 and will sometimes support in our class.



Maths

Year 6 will be starting off the Autumn Term looking at number and place value which includes rounding, ordering numbers and working with negative numbers. We will also be reviewing addition, subtraction, multiplication and division. Your support with helping children learn their times tables facts and continuing with mental maths questions linked to these are greatly appreciated. Online games or apps (such as hit the button) or websites (BBC bitesize) would be helpful for fluency and recapping learning.

Literacy



During the first part of the half term, we will be using the book 'Rain Player' as a stimulus for our writing. We will use ideas from this book and facts about the Maya people to write instructions, diaries and newspaper articles.
Please encourage your child to read every evening as this will benefit all their literacy skills.

History

Children will learn who the ancient Maya people were, and where and when they lived. We will use maps and atlases to locate Maya cities and identify countries in Mesoamerica. In addition to this, we will learn about the religious beliefs and rituals of the Maya and find out more about some of the many gods they worshipped. The children will also learn about the Maya number system and have the opportunity to read and write Maya numbers and solve number problems.

RE

In RE, children will be investigating the different versions of the creation story. They will explain their own views and explore the beliefs of others. We will also learn about the Maya creation story.

Science

Our science topic this half term is 'Animals including Humans.' Children will be learning about the circulatory and digestive systems. We will also learn about what our body needs for nourishment. Children will have the chance to take part in a live video call with a paediatric cardiologist who works in a London hospital, as well as dissect a pig's heart!

PSHE

Our first jigsaw module is entitled 'Being Me in My World'. In these lessons, children will focus on settling into the new school year, building positive relationships and becoming responsible members of our school community. They will also explore how they can make a difference to others, both locally and globally.

Art

In Art, children will explore the work of contemporary paper artists and investigate how paper can be shaped, layered and transformed. They will develop their own designs, create a paper sculpture using a range of techniques and reflect on their creative process and final outcome.

PE

6S will have PE on **Mondays and Tuesdays** with Mrs Boyle.
Please ensure children have the correct school PE kit, including a PE jacket for lessons outside, and appropriate trainers or plimsolls.

Music

Mrs Le Brun will continue to inspire us with her weekly music lessons on Fridays.

Homework

Year 6 will receive weekly homework which will include:

- Maths fluency
- Spellings (Year 6 Jersey Curriculum)

Homework will be given out on a **Monday** and collected in the following **Monday**. Children are welcome to give it in earlier in the week.
Please encourage your child to take responsibility for their own learning in preparation for secondary school.

If you have any questions, please email me at the address below.

Kind regards,

Miss Stafford

Friday 18th September 2026

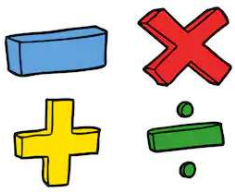
Dear Parents/Carers,

RE: Autumn 1 2026

Welcome back! I hope you had a lovely summer. I am really looking forward to this half-term and below I have outlined the learning that will take place.

Staffing in Year 6

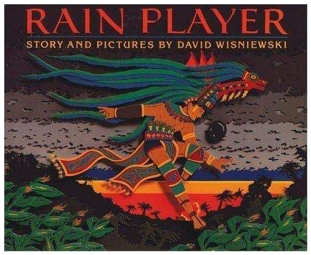
Mr Carlow will be working as a learning support assistant across both Year 6 classes this year on Mondays, Thursdays and Fridays.
Mrs Le Couteur, Mrs Fogarty and Mrs Hansford are also supporting across Upper Key Stage 2 and will sometimes support in our class.



Maths

Year 6 will be starting off the Autumn Term looking at number and place value which includes rounding, ordering numbers and working with negative numbers. We will also be reviewing addition, subtraction, multiplication and division. Your support with helping children learn their times tables facts and continuing with mental maths questions linked to these are greatly appreciated. Online games or apps (such as hit the button) or websites (BBC bitesize) would be helpful for fluency and recapping learning.

Literacy



During the first part of the half term, we will be using the book 'Rain Player' as a stimulus for our writing. We will use ideas from this book and facts about the Maya people to write instructions, diaries and newspaper articles.
Please encourage your child to read every evening as this will benefit all their literacy skills.

History

Children will learn who the ancient Maya people were, and where and when they lived. We will use maps and atlases to locate Maya cities and identify countries in Mesoamerica. In addition to this, we will learn about the religious beliefs and rituals of the Maya and find out more about some of the many gods they worshipped. The children will also learn about the Maya number system and have the opportunity to read and write Maya numbers and solve number problems.

RE

In RE, children will be investigating the different versions of the creation story. They will explain their own views and explore the beliefs of others. We will also learn about the Maya creation story.

Science

Our science topic this half term is 'Animals including Humans.' Children will be learning about the circulatory and digestive systems. We will also learn about what our body needs for nourishment. Children will have the chance to take part in a live video call with a paediatric cardiologist who works in a London hospital, as well as dissect a pig's heart!

PSHE

Our first jigsaw module is entitled 'Being Me in My World'. In these lessons, children will focus on settling into the new school year, building positive relationships and becoming responsible members of our school community. They will also explore how they can make a difference to others, both locally and globally.

Art

In Art, children will explore the work of contemporary paper artists and investigate how paper can be shaped, layered and transformed. They will develop their own designs, create a paper sculpture using a range of techniques and reflect on their creative process and final outcome.

PE

6S will have PE on **Mondays and Tuesdays** with Mrs Boyle.
Please ensure children have the correct school PE kit, including a PE jacket for lessons outside, and appropriate trainers or plimsolls.

Music

Mrs Le Brun will continue to inspire us with her weekly music lessons on Fridays.

Homework

Year 6 will receive weekly homework which will include:

- Maths fluency
- Spellings (Year 6 Jersey Curriculum)

Homework will be given out on a **Monday** and collected in the following **Monday**. Children are welcome to give it in earlier in the week.
Please encourage your child to take responsibility for their own learning in preparation for secondary school.

If you have any questions, please email me at the address below.

Friday 18th September 2026

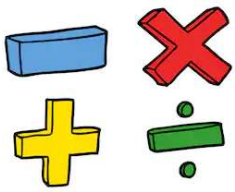
Dear Parents/Carers,

RE: Autumn 1 2026

Welcome back! I hope you had a lovely summer. I am really looking forward to this half-term and below I have outlined the learning that will take place.

Staffing in Year 6

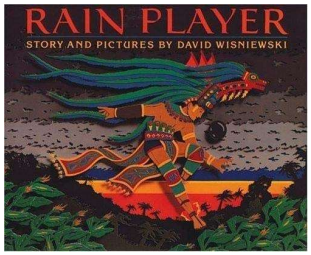
Mr Carlow will be working as a learning support assistant across both Year 6 classes this year on Mondays, Thursdays and Fridays.
Mrs Le Couteur, Mrs Fogarty and Mrs Hansford are also supporting across Upper Key Stage 2 and will sometimes support in our class.



Maths

Year 6 will be starting off the Autumn Term looking at number and place value which includes rounding, ordering numbers and working with negative numbers. We will also be reviewing addition, subtraction, multiplication and division. Your support with helping children learn their times tables facts and continuing with mental maths questions linked to these are greatly appreciated. Online games or apps (such as hit the button) or websites (BBC bitesize) would be helpful for fluency and recapping learning.

Literacy



During the first part of the half term, we will be using the book 'Rain Player' as a stimulus for our writing. We will use ideas from this book and facts about the Maya people to write instructions, diaries and newspaper articles.
Please encourage your child to read every evening as this will benefit all their literacy skills.

History

Children will learn who the ancient Maya people were, and where and when they lived. We will use maps and atlases to locate Maya cities and identify countries in Mesoamerica. In addition to this, we will learn about the religious beliefs and rituals of the Maya and find out more about some of the many gods they worshipped. The children will also learn about the Maya number system and have the opportunity to read and write Maya numbers and solve number problems.

RE

In RE, children will be investigating the different versions of the creation story. They will explain their own views and explore the beliefs of others. We will also learn about the Maya creation story.

Science

Our science topic this half term is 'Animals including Humans.' Children will be learning about the circulatory and digestive systems. We will also learn about what our body needs for nourishment. Children will have the chance to take part in a live video call with a paediatric cardiologist who works in a London hospital, as well as dissect a pig's heart!

PSHE

Our first jigsaw module is entitled 'Being Me in My World'. In these lessons, children will focus on settling into the new school year, building positive relationships and becoming responsible members of our school community. They will also explore how they can make a difference to others, both locally and globally.

Art

In Art, children will explore the work of contemporary paper artists and investigate how paper can be shaped, layered and transformed. They will develop their own designs, create a paper sculpture using a range of techniques and reflect on their creative process and final outcome.

PE

6S will have PE on **Mondays and Tuesdays** with Mrs Boyle.
Please ensure children have the correct school PE kit, including a PE jacket for lessons outside, and appropriate trainers or plimsolls.

Music

Mrs Le Brun will continue to inspire us with her weekly music lessons on Fridays.

Homework

Year 6 will receive weekly homework which will include:

- Maths fluency
- Spellings (Year 6 Jersey Curriculum)

Homework will be given out on a **Monday** and collected in the following **Monday**. Children are welcome to give it in earlier in the week.
Please encourage your child to take responsibility for their own learning in preparation for secondary school.
