

Dear Parents and Carers,

We hope you have all had a lovely Easter break and that your child is glad to be back at school. We are looking forward to a busy half term of learning. Here is a newsletter to update you on what is coming up this half term.

Literacy

In Literacy pupils are learning through a book called 'The Little Gardener', which is about a boy who must work very hard to keep his garden alive and well. However, no matter how hard he works, he is too little to look after the garden by himself. We will be working towards writing a letter to the Little Gardener about how we can help him and his garden. Our main objective is to begin to punctuate sentences using question marks and using the suffix -ing.

During the daily Read, Write, Inc. sessions, children are in groups to help them master and develop their reading skills at their own pace. The children are making good progress. Please make sure your child continues to read their Read, Write, Inc. book at home and return them when necessary.

To develop comprehension in reading, we are continuing to use the *Talk Through Stories* programme. *Talk Through Stories* helps develop children's spoken vocabulary drawing on the best of children's literature.

Mathematics

This term pupils will be learning about division, fractions, and place value to 100.

All the way through our maths learning we will be applying our learning to solve real life problems. When possible, you could practise with your child their counting, number bonds, and addition and subtraction to help develop their fluency.

Science

As scientists, the pupils will be learning about plants. They will be learning how to identify wild and garden plants, and deciduous and evergreen trees as well as knowing the parts of a plant.

Design Technology

In Design Technology, Year 1 are designing and creating their own healthy smoothies. Pupils will be participating in a DT design day where, in groups, they will be evaluating existing products, designing their own product and label.

Geography

This half term, the focus is on the human and physical features of the local environment such as, beaches, seas, cliffs, coasts, shops, towns, houses, and school. The children will also be learning about the 12 parishes and key landmarks.

PSHE / JIGSAW

This half term JIGSAW is focusing on 'Relationships'. The children will be focusing on making friends, people who help us, and our families.

PE

PE for Year 1G and Year 1S remains on Tuesdays.

Jersey Sport will continue to deliver these exciting and engaging lessons to your children.

Homework

Please continue to use the 'Lending Library' to share a book together at home. Please ensure that once you have read the story, that you return it and collect a new story.

Depending on your child's Read Write Inc group, your child will continue to take home the book they have previously practised in class. The groups are changing so your child may have a different coloured book to normal.

If your child wants to do any more learning at home, BBC bitesize, Topmarks (maths), and Phonics Play are great resources online.

General Information

We hope this gives you an insight into what life and learning in Year 1 will be like this half term. If you have any questions or concerns, please do not hesitate to get in touch. We will be by the Year 1 door at the end of each school day, but you can also email us to arrange a time to meet.

Kind Regards,

Miss Germain and Miss Sundby
