Thursday 7th November 2025

Dear Parents/Carers,

RE: Autumn 2 2025

Welcome back! I hope you had a great half term. We have an exciting half-term ahead and below I have outlined the learning that will take place.

Maths

Year 5 have made great progress in maths so far with place value and addition and subtraction. This half term, we will be continuing our focus on multiplication and then move on to division. We will cover the division of 2, 3 and 4-digit numbers before moving onto solving a variety of word problems.

Your support with helping children continue to practise mental maths questions at home and learn their times tables facts is greatly appreciated. If your child needs another copy of their J2E login details, please let me know: www.mathsframe.co.uk or www.ictgames.co.uk

Literacy

This half term, we will be using the book 'Curiosity: The Story of a Mars Rover' as a stimulus for our writing. We are working towards writing an information text to inform other children about Curiosity and how it was made. We will be learning to write using relative clauses and use dashes for parenthesis.

Our class book in reading is 'Who Let The Gods Out?' by Maz Evans. We spend 15 minutes reading this every day and our Tuesday and Friday guided reading lessons will focus on this class book. On Thursdays we will study a new piece of text each day and work on different reading skills.

PSHE

In PSHE, we will focus on our next Jigsaw module called 'Celebrating Differences'. This module looks at culture and how these differ, along with accepting and celebrating the differences of others.

Geography

Our geography focus for this half-term will be on the Arctic Circle. Children will learn where it is, what makes it up and compare it to other areas of the world. They will also investigate how climate change is affecting the Arctic.

RE

In RE, we will be exploring what it means to be a Muslim in Britain today. We will learn how Muslims relate to God, The Prophet and the Qur'an and how they practise their religion in this country, including visiting a local Mosque.

Science

This half-term we will be exploring our solar system. Children will be finding out about the different planets in our solar system, how the sun, moon and Earth move and why we have day and night.

Design Technology

In Design Technology we will be exploring cam toys before designing and making our own moving toy using cams. If you have any shoeboxes that you no longer need, please send these into school for us to use for this project.

PE

Our PE days for this half-term will be **Mondays** where we will be swimming at Langford, and **Tuesdays** (with Blair from Jersey Rugby). Please ensure children have the correct school PE kit, including a PE jacket for lessons outside, and appropriate trainers or plimsolls.

Homework

Year 5 spellings and maths will be given out every Monday. Please encourage your child to complete this as it reinforces what we have learnt in class.

Kind regards,

Mr Sanson & Miss Germain
